Assistance Grant (JAG)
Program**

FY15 State Annual Report

FOREWORD

On behalf of the State of Missouri and the Department of Public Safety, Office of the Director, it is my pleasure to present the FY15 Edward Byrne Memorial Justice Assistance Grant (JAG) Annual Report. Since 1987, the Byrne/JAG Program has been an essential resource in our continuing effort to meet the public safety needs of our state criminal justice community. The Missouri Department of Public Safety remains committed to assisting criminal justice agencies in making Missouri a safer place. The JAG Program makes it possible for Missouri to aggressively address the many public safety issues associated with illicit drugs and violent crime.

The FY15 JAG Program Annual Report is a comprehensive evaluation of state- and local-level projects that have received financial assistance through the JAG Program. During this reporting period of July 1, 2014 through June 30, 2015, the Missouri Department of Public Safety - Criminal Justice/Law Enforcement Program provided grant awards to 28 projects under the 2014 JAG Solicitation and 112 projects under the 2015 LLEBG Solicitation.

Financial assistance was provided to projects supporting Law Enforcement, Prevention and Education, Drug Treatment, and Planning, Evaluation, and Technology Improvement. By supporting the award of the JAG Program money for projects within these purpose areas, we best serve the citizens of Missouri.

The Missouri Department of Public Safety remains committed to our vision, “By embracing the challenges of the future, the Department of Public Safety and the law enforcement community working together will provide the protection and service to create a quality of life in which all people feel safe and secure.” The JAG Programs helps us realize this vision.

Lane J. Roberts, Director
Missouri Department of Public Safety

The Missouri Department of Public Safety wishes to extend its appreciation to the Criminal Justice Agencies that provided the information included in this report.

Grant #2014-MU-BX-0858 awarded by the Bureau of Justice Assistance, Office of Justice Programs, United States Department of Justice provided funding for this report.

Researched and prepared by:

The Criminal Justice/Law Enforcement Program staff and members of the
Statistical Analysis Center - Missouri State Highway Patrol

February 2016

Executive Summary

In 1987, the Missouri Department of Public Safety initiated an administrative section within the Office of the Director, whose primary responsibility was to oversee and coordinate the dissemination of federal funding awards made to Missouri. This administrative section was implemented and titled as the Narcotics Assistance Control Program (NCAP) in response to the establishment of the federal Edward Byrne Memorial Formula Grant (Byrne) and Local Law Enforcement Assistance Grant (LLEBG) Programs authorized by Title I of the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3711 et seq. Additionally, the furtherance of the overall mission of the Missouri Department of Public Safety, as defined in Chapter 650 of the Missouri Revised Statutes, became and continues to be the directive for the Office of the Director. That mission is to provide a safe and secure environment for all individuals, through efficient and effective law enforcement.

Since the initial implementation, the NCAP has been renamed the Criminal Justice/Law Enforcement (CJ/LE) Program and the Byrne and LLEBG Programs have been consolidated into one program titled the Edward Byrne Memorial Justice Assistance Grant (JAG) Program.

Throughout the years, the Missouri Department of Public Safety (DPS), through the CJ/LE Unit, has been involved in an on-going effort to identify the criminal justice needs of state and local units of government. As a result of this process, the CJ/LE Unit has provided the financial and technical assistance required to initiate state and local level responses to crime and drug related issues. This response, which parallels the established objectives of the JAG Program as outlined by the U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance, is the foundation for project initiatives within Missouri. It remains the priority of the CJ/LE Unit to identify state and local initiatives which assist the state of Missouri in the enforcement of drug control or controlled substance laws, initiatives which emphasize the prevention and control of violent crime and serious offenders, and initiatives which improve the effectiveness of the state and local criminal justice system.

In compliance with section 522(a) of the Omnibus Crime Control and Safe Streets Act, the FY15 State Annual Report (SAR), will outline the impact of JAG Program funding on the criminal justice system within the jurisdictions of state and local government. During the reporting period covered in this annual report, July 1, 2014 through June 30, 2015, the Criminal Justice/Law Enforcement Unit provided funding assistance in four (4) authorized purpose areas. The total monetary award for this reporting period was \$4,334,607.77 for which the CJ/LE Program was able to provide financial assistance to 140 state and local level projects.

The DPS - CJ/LE Program continues to be an essential component of the statewide effort to address violent crime and drugs. Through the JAG Program, Missouri has the financial capability to maintain essential projects that provide needed services for the criminal justice community. In addition to the initiatives previously described, the CJ/LE Unit places an equally high priority on the development and continuation of projects and partnerships that enhance a state or local unit of government's ability to implement aggressive responses to the public safety needs of their respective service areas. The CJ/LE Unit strives to implement progressive demand reduction, community, multi-jurisdictional, judicial, correctional, analytical and informational-based response strategies to the public safety threats of crime and drugs.

I. INTRODUCTION

PROGRAM OVERVIEW

The Missouri Department of Public Safety, Office of the Director, Criminal Justice/Law Enforcement Unit manages the distribution of federal funds provided to the State from the Edward Byrne Memorial Justice Assistance Grant (JAG) Program by the U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Bureau of Justice Assistance (BJA). The unit responsible for the management of these funds is the Criminal Justice/Law Enforcement (CJ/LE) Unit. Since 1987, the JAG Program (formerly known as the Edward Byrne Memorial Formula Grant and Local Law Enforcement Block Grant Programs) provided criminal justice agencies with financial resources to confront drugs and violence. The Missouri Department of Public Safety, Office of the Director is committed to assisting state and local efforts to make Missouri a safer place. Dealing with illicit drugs and violent crime head-on is critical to this effort and Federal grant monies make this possible.

The Missouri Department of Public Safety has undertaken a comprehensive approach to utilizing the JAG dollars. Enforcement/interdiction, prevention/education, treatment, improving criminal history records, and improving statewide illicit drug and violent crime data are the focus areas for the FY15 funding year. By addressing these issues, we believe we can receive the most benefit for the citizens of Missouri.

Since the beginning of Byrne/JAG funding in 1987, the Missouri Department of Public Safety (DPS), CJ/LE Program, has developed a comprehensive strategic approach to the drug and violent crime problems facing Missouri. The current strategy has been designed as a strategic “road map” for the years of 2014 through 2015. The strategy developed by the DPS – CJ/LE Program, in conjunction with the Statistical Analysis Center (SAC) of the Missouri State Highway Patrol, will provide the State of Missouri with a directional foundation for the next century.

The State of Missouri has, and will continue to build on past years’ successes by supporting effective projects, which are committed to the overall objective of a safer Missouri. DPS will continue to evaluate the effectiveness of each state and local project receiving federal money, to ensure that the goals and objectives of each project are addressing the needs of Missouri citizens.

FY15 SUMMARY

Implementation of the 2014 JAG funding year began with the review of Non-Drug Task Force (Non-DTF) project applications in June 2014 by a grant review committee consisting of the DPS - CJ/LE Unit staff. Eighteen (18) requests for funding were reviewed from the 2014 JAG Non-DTF funding opportunity within the approved project categories as described below. The grant evaluation process was competitive in nature, and only those grant applications determined to coordinate with the goals and objectives of the statewide strategy were considered for funding. Four (4) grant awards were made to state and local recipients in the amount of \$442,007.57 for the 12-month contract period of July 1, 2014 to June 30, 2015.

Implementation of the 2014 JAG funding year continued with the review of DTF project applications in August 2014 by a grant review committee consisting of the DPS - CJ/LE Unit staff and individuals comprising the DTF Advisory Group. Twenty-four (24) requests for funding were reviewed from the 2014 JAG DTF funding opportunity within the approved Law Enforcement program category as described below. The grant evaluation process was competitive in nature, and only those grant applications determined to coordinate with the goals and objectives of the statewide strategy were considered for funding. Twenty-four (24) grant awards were made to local recipients in the amount of \$3,157,349.34 for the 12-month contract period of July 1, 2014 to June 30, 2015.

In addition, two hundred forty-eight (248) requests for funding were received through the 2015 LLEBG funding opportunity. These project applications were reviewed on October 16-17, 2014 by a grant review committee consisting of the DPS – CJ/LE Unit staff and individuals from criminal justice agencies. The grant evaluation process was competitive in nature, and only those grant applications determined to have an emphasis on officer safety were considered for funding. One hundred twelve (112) grant awards were made to local recipients in the amount of \$735,250.86 for the 6-month contract period of January 1, 2015 to June 30, 2015.

The FY15 program planning approach of the DPS – CJ/LE Unit used statistical information obtained from various reporting entities throughout the State. This information not only aided in the identification of drug and crime related trends, but also

assisted in the evaluation of projects supported by the DPS – CJ/LE Unit. Quarterly reports required of Multi-Jurisdictional Drug Task Forces collected valuable information on their activities and workload as well as information on drug prevalence, enforcement, and distribution of drug industries in the state. Programs funded under other purpose areas provided information in semi-annual and annual progress reports that described their activities and successes.

Following is a brief summary on each category funded through the DPS - CJ/LE Unit during the FY15 funding cycle.

Law Enforcement Programs

Funding for Law Enforcement projects was the largest funding category for the DPS – CJ/LE Unit during funding year FY15.

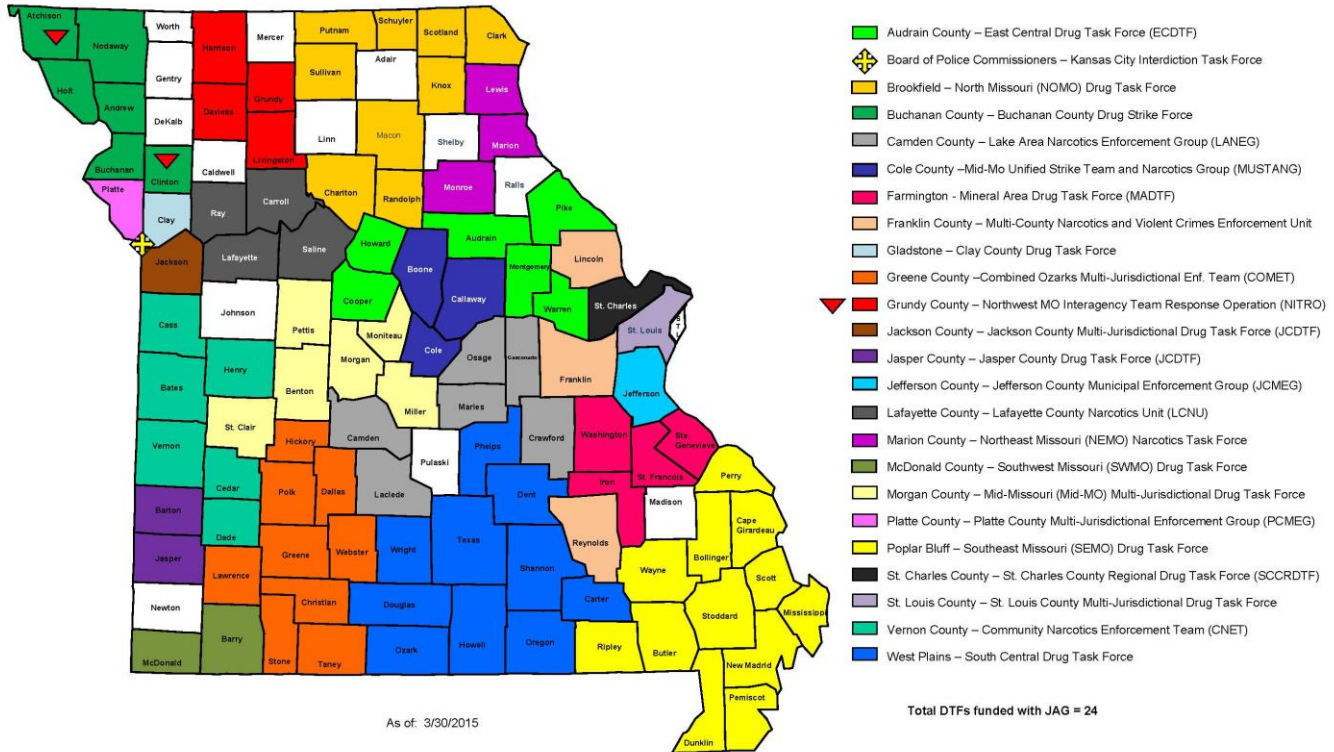

Under the 2014 JAG DTF funding opportunity, the CJ/LE Program awarded \$3,157,349.34 to twenty-four (24) multi-jurisdictional drug task forces, and under the 2014 JAG Non-DTF funding opportunity, the CJ/LE Unit awarded \$121,270.18 to one (1) multi-agency law enforcement group for a total of \$3,278,620.12.

The following Multi-Jurisdictional Drug Task Forces were funded in FY15:

1. Audrain County - East Central Drug Task Force (ECDTF)
2. Board of Police Commissioners - Kansas City Interdiction Task Force
3. Brookfield - North Missouri (NOMO) Drug Task Force
4. Buchanan County Drug Strike Force
5. Camden County - Lake Area Narcotics Enforcement Group (LANEG)
6. Clay County Drug Task Force
7. Cole County - Mid-Missouri Unified Strike Team And Narcotics Group (MUSTANG)
8. Farmington City - Mineral Area Drug Task Force (MADTF)
9. Franklin County – Multi-County Narcotics and Violent Crimes Enforcement Unit (MCNVCEU)
10. Greene County - Combined Ozarks Multi-Jurisdictional Enforcement Team (COMET)
11. Grundy County - Northwest Missouri Interagency Team Response Operation (NITRO)
12. Jackson County Multi-Jurisdictional Task Force
13. Jasper County Drug Task Force (JCDTF)
14. Jefferson County Municipal Enforcement Group (JCMEG)
15. Lafayette County Narcotics Unit (LCNU)
16. Marion County - Northeast Missouri (NEMO) Narcotics Task Force
17. McDonald County - Southwest Missouri (SWMO) Drug Task Force
18. Morgan County - Mid-Missouri (Mid-MO) Multi-Jurisdictional Drug Task Force
19. Platte County Multi-Jurisdictional Enforcement Group (PCMEG)
20. Poplar Bluff City - Southeast Missouri (SEMO) Drug Task Force
21. St. Charles County Regional Drug Task Force (SCCRDTF)
22. St. Louis County Multi-Jurisdictional Drug Task Force
23. Vernon County - Community Narcotics Enforcement Team (CNET)
24. West Plains City - South Central Drug Task Force

Of the 114 counties in the state of Missouri, 101 were active participants/members of these multi-jurisdictional enforcement efforts.

2014-2015 JAG FUNDED DTFs BY MOU SIGNING SERVICE AREA

Federal funding was awarded for the above-mentioned projects as multi-jurisdictional, multi-agency counter-drug enforcement efforts. During 2014/2015, the illicit drug methamphetamine continued to be a priority for an aggressive law enforcement strategy, designed to slow or halt the spread of this drug. As the scope of the methamphetamine problem extends beyond the capabilities of a single entity, many partnerships have been forged in response to this threat to public safety, public health and the sovereignty of our State's environment. The DPS – CJ/LE Unit has placed great emphasis on the establishment of a comprehensive Memorandum of Understanding/Agreement between all partners of the multi-jurisdictional enforcement group so that a more comprehensive understanding of responsibilities and expectations exist. Through local, state and federal collaborations and a continued aggressive response, we anticipate the rise in methamphetamine related activity to peak and eventually decline.

During the past three fiscal years, the following statistics were collected for the Multi-Jurisdictional Drug Task Forces funded by the DPS – CJ/LE Unit in the State of Missouri. The following statistics are an example of the data collected through the Quarterly Progress Reports.

	FY13	FY14	FY15
Arrested with one or more drug charges	6,315	6,442	5,379
Search warrants served	1,220	1,484	1,180
Consent searches performed	3,700	4,257	4,592
Methamphetamine labs seized/destroyed:	1,395	1,066	708
Drug Seized			
Cocaine-Crack (grams)	3,260	4,524	879
Cocaine-Powder (grams)	43,149	112,374	48,538
Ecstasy/MDMA (grams)	284	13,128	846
Hallucinogens LSD (grams or doses)	227 g	1369 (doses)	765
Hallucinogens PCP (grams)	3,572	213,530	5,029
Heroin (grams)	5,783	26,086	148,128
Marijuana (grams)	4,321,504	3,586,880	4,975,931
Methamphetamine (grams)	92,591	256,021	335,597
Prescription Pills (doses/pills)	not available	19,466	58,870

Psilocybin (grams)	not available	4,937	1,301
Pseudoephedrine/Ephedrine (grams)	2,296	1,208	674
Synthetics (grams)	not available	157,978	6,736
Other (grams)	101,351	26,497	7,156

NOTE: A full statistical summary of the Multi-Jurisdictional Drug Task Force accomplishments from FY15 is provided in attachment A of this report.

Under the 2015 LLEBG funding opportunity, the CJ/LE Unit awarded \$735,250.86 to one hundred twelve (112) state and local law enforcement agencies. The LLEBG Program is a vital funding mechanism for law enforcement. Short-term grants are awarded from the less than \$10,000 portion of the JAG Program for the purchase of basic law enforcement and officer safety equipment that will enable Missouri law enforcement to meet their local needs. Such items include, but are not limited to light bars, sirens, mobile and portable radios, flashlights, handcuffs, protective clothing, ballistic vests, car cages, in-car cameras, locks, and trauma kits. The breakdown of requested and awarded equipment items is as follows:

2015 LLEBG Requested Equipment		
Item	Quantity	Amount
Vehicles	27	254,019.33
Light Bars/Lights	344	174,110.47
Siren/Siren Box	74	38,342.11
Flashlights	359	49,738.76
Ballistic Vests	390	225,050.85
Protective Clothing	382	29,467.12
In-Car Cameras	144	343,679.71
Body Cameras	505	317,335.53
Radios/Repeaters	226	322,778.74
Cages/Partitions	52	43,518.52
Trauma Kits	336	28,758.51
Misc.	1,170	317,687.52
TOTAL	4,009	2,144,487.17

2015 LLEBG Awarded Equipment		
Item	Quantity	Amount
Vehicles	10	97,361.19
Light Bars/Lights	242	115,311.72
Siren/Siren Box	50	26,107.82
Flashlights	151	16,663.45
Ballistic Vests	184	118,192.02
Protective Clothing	212	17,338.46
In-Car Cameras	0	0.00
Body Cameras	67	45,530.38
Radios/Repeaters	102	161,004.60
Cages/Partitions	45	39,583.92
Trauma Kits	176	11,629.07
Misc.	527	86,528.23
TOTAL	1,766	735,250.86

Prosecution and Court Programs

No funding assistance was provided to this purpose area during the 2014/2015 funding cycle.

Prevention and Education Programs

Under the 2014 JAG funding opportunity, the CJ/LE Unit awarded one (1) project for an award of \$236,436.17. This program is designed to provide the proper supplies and reference materials to law enforcement officers and emergency personnel to help safely respond to clandestine methamphetamine lab incidents and not harm the environment.

Corrections and Community Corrections Programs

No funding assistance was provided to this purpose area during the 2014/2015 funding cycle.

Drug Treatment Programs

Under the 2014 JAG funding opportunity, the CJ/LE Unit awarded one (1) project for an award of \$21,367.55. Drug-treatment-programs identify and meet the treatment needs of adult and juvenile drug dependent and alcohol-dependent offenders. Such programs can include behavioral therapy (such as counseling, cognitive therapy, or psychotherapy), medications, or a combination of both and are intended to provide intensive assistance to those individuals that are battling a substance abuse addiction.

Planning, Evaluation, and Technology Improvement Programs

Under the 2014 JAG funding opportunity, the CJ/LE Unit awarded one (1) project for an award of \$62,933.07. This program enhances the State's ability to collect accurate criminal history record information, in a timely manner, and provide the appropriate storage mechanism within the Missouri Criminal Records Repository. The project will continue to enhance the State's ability to collect accurate criminal history record information, in a timely manner. This goal remains a top priority for the State of Missouri and this approved purpose area provides the financial mechanism that enables the State to collect the required criminal records data from all criminal justice entities and provide the appropriate storage mechanism within the Missouri Criminal Records Repository. In addition, local criminal justice agencies are assisted with automated criminal justice reporting to the state central repository to ensure reports are timely, accurate and complete.

Crime Victim and Witness Programs

No funding assistance was provided to this purpose area during the 2014/2013 funding cycle.

FY15 COORDINATING PROGRAM SUMMARY

It is recognized illicit drug use and distribution are linked to other types of criminal behavior contributing to social problems facing the State of Missouri. These only can be addressed through coordination of efforts and resources at all levels. The Department of Defense (DOD) 1033 Excess Property Program, Missouri Crime Lab Upgrade Program (MCLUP), Residential Substance Abuse Treatment (RSAT) Program, and State Cyber Crime Grant (SCCG) Program are administered and coordinated by the DPS - CJ/LE Unit to prevent duplication of efforts and to build a comprehensive enforcement strategy. With the exception of the DOD 1033 Excess Property Program, these programs are not funded from the Edward Byrne Memorial Justice Assistance Grant (JAG) program but their coordinating efforts assist the projects that are funded from the JAG program

Department of Defense (DOD) 1033 Excess Property Program

The Secretary of Defense is authorized by 10 USC § 2576a to transfer to Federal and State Agencies, personal property that is excess to the needs of the Department of Defense (DOD) and that the Secretary determines is suitable to be used by such agencies in law enforcement activities, with emphasis on counter-drug/counter-terrorism activities, under such terms prescribed by the Secretary. With the exception of shipping or travel costs associated with the acquisition, the property is free of charge.

The authorities granted to the Secretary of Defense have been delegated to the Defense Logistics Agency (DLA) in determining whether property is suitable for use by agencies in law enforcement activities. DLA has final authority to determine the type, quantity, and location of excess DOD personal property suitable for law enforcement activities, if any, which will be transferred to a State or Territory.

Within Missouri, the Department of Public Safety (DPS) is the authorized agency to operate the DOD 1033 Excess Property Program (hereafter "1033 Program"). Specifically within the Department of Public Safety, the Governor-appointed State Coordinator is the Program Manager of the Criminal Justice/Law Enforcement (CJ/LE) Unit. DPS operates as a Transitional Distribution Point (TDP) and is only one (1) of three (3) states that operate in this manner. The benefit of a TDP is that property can be screened in bulk quantities and can be redistributed to local agencies in a short period of time. DPS operates a distribution center in Jefferson City, MO, which provides a central location for agencies to pick up and return 1033 property.

During July 1, 2014 and June 30, 2015, there continued to be an increase in the number of agencies that registered to participate in the 1033 Program. In addition, the DPS continued to see an increase in the number of agencies that requested property compared to FY14. With the ever increasing budget restraints, agencies are utilizing programs like the 1033 Program to help stretch their budget further.

As an approved TDP, DPS staff continued to screen and tag a variety of property including IT equipment, such as desktop, laptop computers, and printers. DPS staff can bring these items back to the TDP and refurbish them prior to issuing them out to the requesting local agencies. This IT equipment is assisting law enforcement agencies in capturing crime statistics data and managing records, as well as interagency networking via the Internet.

In addition to IT equipment, DPS staff tagged a number of other property items to include, but not limited to: watercraft, for the agencies located along one of the many rivers or lakes in the State of Missouri; generators, to assist during power losses due to storms; off-road 4x4 vehicles, to assist with drug eradication; and specialty gear, such as night vision goggles, spotting scopes, and red dot rifle scopes, for use by tactical teams in high risk entry. DPS staff also tagged items needed for the day-to-day operation to include, but not limited to: desks; cold weather clothing; survival blankets, cots, and wool blankets to assist victims in emergency situations; and lockers for storing evidence. In addition, during FY15, DPS staff saw a significant increase in the number of agencies requesting weapons for high-risk search warrant entry and active shooter incident response along with an increase in requests for the off road HMMWV (Humvee).

Overall, in FY15, DPS staff received 13,782 items valuing \$2,999,203.39.

Missouri Crime Lab Upgrade Program (MCLUP)

Missouri crime laboratories are included in this report because analysis of evidence is a key to the successful prosecution of drug offenders. In addition, data collected from crime laboratories can be an invaluable resource for analyzing Missouri's illicit drug problem. Several crime laboratories receive funding from the state-funded Missouri Crime Lab Upgrade Program (MCLUP) grant administered by the DPS - CJ/LE Program. The MCLUP Program was created pursuant to 650.105 RSMo and funds are collected pursuant to 488.029 RSMo and deposited into the "State Laboratory Forensic Account". These grants provide state-of-the-art equipment, supplies, and manpower to regional crime labs throughout the state to reduce backlogs and increase turnaround in the analysis of evidence.

During the FY15 reporting period, the DPS – CJ/LE Program made six (6) MCLUP awards to state and local recipients in the amount of \$589,080.33. The following crime laboratories received 2015 MCLUP monies for the 12 month contract period of June 1, 2014 to May 31, 2015:

1. Independence Police Department Crime Laboratory
2. Kansas City Police Department Crime Laboratory
3. Missouri State Highway Patrol Crime Laboratory
4. St. Charles County Sheriff's Department Crime Laboratory
5. St. Louis County Police Department Crime Laboratory
6. St. Louis Metropolitan Police Department Crime Laboratory

NOTE: A full statistical summary of Crime Laboratory accomplishments from FY15 is provided in attachment B of this report.

Residential Substance Abuse Treatment (RSAT) Program

The Residential Substance Abuse Treatment (RSAT) Program was authorized under the federal Violent Crime Control and Law Enforcement Act of 1994, as amended and reauthorized [Public Law 103-322, 42 U.S.C. 3796ff-1(3)]. The U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Bureau of Justice Assistance (BJA) is the awarding agency of these federal funds.

The goal of the RSAT Program is to break the cycle of drugs and violence by reducing the demand for, use, and trafficking of illegal drugs.

The objectives of the RSAT Program are to: 1) Enhance the capability of states and units of local government to provide residential substance abuse treatment for incarcerated inmates; 2) Prepare offenders for their reintegration into the communities from which they came by incorporating re-entry planning activities into treatment programs; and 3) Assist both the offenders and their communities through the reentry process

During the FY15 reporting period, the DPS – CJ/LE Unit made two (2) RSAT awards to state and local recipients for the 12-month contract period of July 1, 2014 to June 30, 2015. The total award amount for this period was \$458,219.93. Grants were awarded to:

1. Missouri Department of Corrections in Bowling Green, MO
2. St. Louis County Justice Services Department in Clayton, MO

The Missouri Department of Corrections project continued the provision of residential substance abuse treatment services to mobility impaired and other special needs offenders who received programming services at Northeast Correctional Center. These clinical services included assessment and treatment planning, group education, group counseling, individual case management, employability skills, individual counseling and referral to community continuing care in the community.

The St. Louis County Justice Services project continued the provision of jail-based substance abuse treatment services to inmates sentenced to the Department of Justice Services Choices Program. In addition, the inmates, as well as released inmates, were given the opportunity to attend weekly Aftercare groups and individual sessions to ensure their continued sobriety and success within the community.

State Cyber Crime Grant (SCCG) Program

In December 2006, the State of Missouri appropriated state monies for the purpose of establishing the Internet Cyber Crime Grant (ICCG) program, which allowed for the funding of salaries of detectives and forensic personnel and training for those individuals whom worked directly with internet crimes relating to child pornography, enticement, solicitation, and other sex-related offenses. State funding was re-appropriated in FY09 but was not re-appropriated for FY10, FY11, FY12, or FY13. Therefore, for FY10-FY13, the State of Missouri, Department of Public Safety, allocated monies from the Recovery-JAG Program to the Multi-Jurisdictional Cyber Crime Grant (MJCCG) Program in order to retain the previously funded positions and to continue the enforcement and public training provided by the cyber crime units within the state.

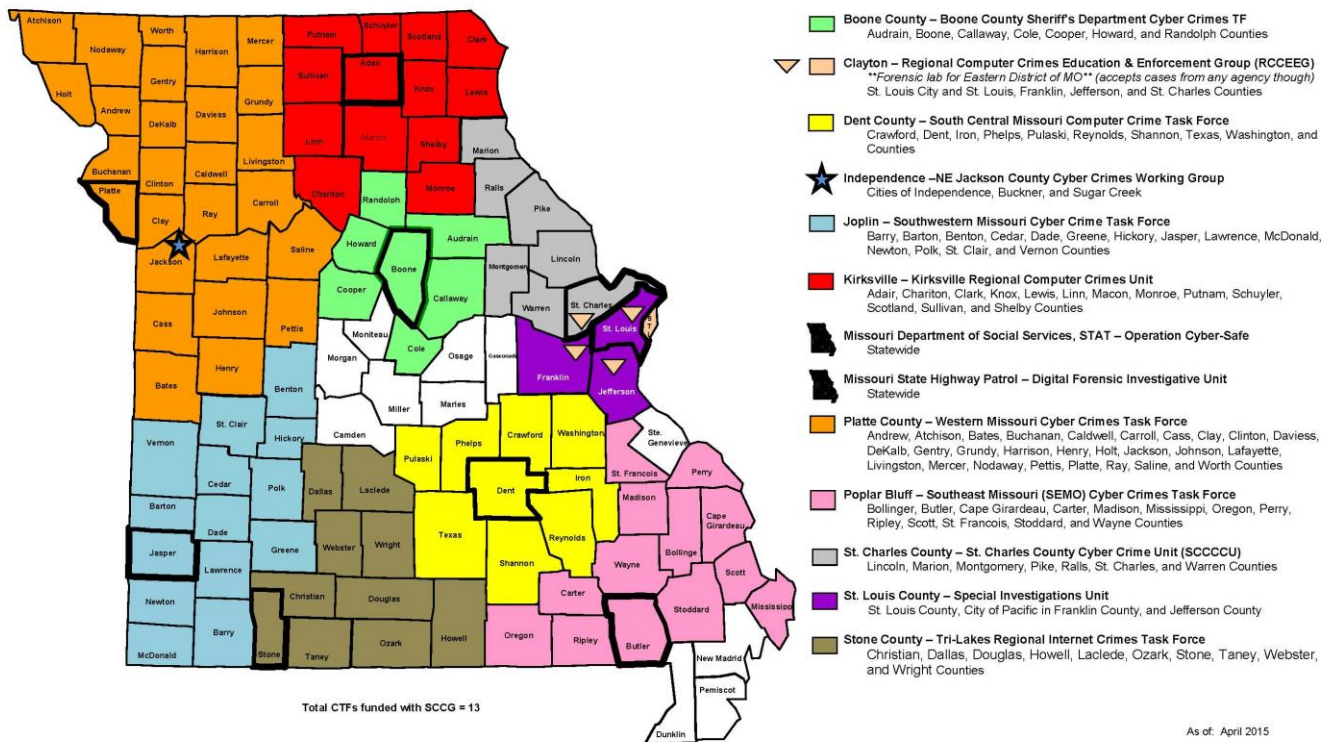

Following the project period end of the Recovery-JAG monies in FY13, the State of Missouri continued funding through the state-funded State Cyber Crime Grant (SCCG) Program for the salaries, training, and operational expenses of detectives and forensic personnel working directly with internet crimes relating to child pornography, enticement, solicitation, and other sex-related offenses.

During the FY15 reporting period, the DPS – CJ/LE Program made thirteen (13) SCCG awards to state and local recipients. The total award for this period was \$1,442,815.50. The following multi-jurisdictional cyber task forces received SCCG monies for the 12 month contract period of June 1, 2014 to May 31, 2015:

1. Boone County Sheriff's Department Cyber Crimes Task Force
2. Clayton City - Regional Computer Crimes Education and Enforcement Group (RCCEEG)
3. Dent County - South Central Missouri Computer Crimes Task Force
4. Independence - Northeastern Jackson County Cyber Crimes Working Group Against Internet Crimes
5. Joplin City - Southwestern Missouri (SWMO) Cyber Crime Task Force
6. Kirksville Regional Computer Crimes Unit
7. Missouri Department of Social Services, STAT - Operation Cyber-Safe
8. Missouri State Highway Patrol – Digital Forensic Investigative Unit (DFIU)
9. Platte County - Western Missouri Cyber Crime Task Force (WMCCTF)
10. Poplar Bluff City - Southeast Missouri (SEMO) Cyber Crimes Task Force
11. St. Charles County Cyber Crime Unit (SCCCCU)
12. St. Louis County - Special Investigations Unit
13. Stone County - Tri-Lake Regional Internet Crimes Task Force

Of the 114 counties in the state of Missouri, 103 counties were active participants/members of these multi-jurisdictional enforcement efforts.

FY15 STATE CYBER CRIME GRANT (SCCG) FUNDED CYBER TASK FORCES

The following evaluation results are a summary of the data collected from the quarterly reports submitted by all the Cyber Crime Task Forces:

Arrest and prosecution of individuals/groups in Cyber Crime

1. During this period there were 355 arrest offenses with 318 individuals arrested.
2. The five most frequent offenses were: 1) Child Pornography - Possession, 2) Child Pornography - Distribution, 3) Child Solicitation / Enticement, 4) Other, and 5) Child Molestation.
3. There were 3,160 new cases in FY15 with 1,042 cases referred to local agencies for prosecution.
4. During the reporting period there were 628 search warrants served and an additional 207 consent searches conducted.
5. There were a total of 252 computer crime prevention program & presentations attended in FY15.
6. In the reporting period there were a total of 907 subpoenas.
7. In addition there were 2,221 cases that involved forensic lab and 2,029 cases that involved cell phone exams.

NOTE: A full statistical summary of Multi-Jurisdictional Cyber Crime Task Force accomplishments from FY15 is provided in attachment C of this report.

II. FY15 SUMMARY OF PROGRAMS, EVALUATION METHODS, AND EVALUATION RESULTS

PURPOSE AREA: LAW ENFORCEMENT

Number of Sub-grants: 137

Federal Funds Awarded: \$4,013,870.98

Federal Funds Expended: \$3,959,883.01

PROBLEM STATEMENT

Illicit drugs cause major problems for law enforcement agencies in the State of Missouri. The use, sale, distribution, and transportation of illegal narcotics must be addressed. A significant amount of crime both in the State of Missouri, and nation as a whole can largely be attributed to drug violations. Drug violations can act as a springboard to other crimes such as homicides, robberies, assaults, larcenies, burglaries, vandalism, and violence in public housing, and help to create a fear of crime in neighborhoods. Because of the sparse population in the rural areas of the State, drug traffickers for clandestine laboratories, where amphetamine/methamphetamine is manufactured, often use these areas. Many of the rural areas are protected by local law enforcement agencies that have limited resources and are unable to provide 24 hour staffing to protect its citizens, much less operate specialized drug units without financial assistance. The hazardous material generated by the manufacture of methamphetamine and left behind by clandestine laboratory operators compounds this problem. The JAG Program makes it possible for Missouri's law enforcement to combat and suppress its illicit drug problems.

In addition, funding for local budgets of law enforcement agencies is not increasing. As a result, law enforcement agencies are relying more and more on state and federal funding to supplement their local operating budgets or are foregoing necessary replacements and improvements to their most basic tools. Funding for basic, officer safety related equipment is a necessity to ensure officers can perform their functions efficiently and effectively and provide the level of service to their community they are expected to provide. The LLEBG Program makes this more possible.

PROGRAM DESCRIPTION

The overall drug and crime problem reveals an increasingly adverse effect upon our community and society in general. The Multi-Jurisdictional Task Force Program is a significant tool in combating the plague of drug activity that is present in our society. Agencies join together and combine resources in a team approach to provide enforcement in their target areas. As a result of the Multi-Jurisdictional Task Force programs, communications are improved between law enforcement agencies. These lines of communication are essential in sharing information and thereby coordinating a combined effort to combat the drug and crime problem, as well as addressing the hazards associated with the residual effects of methamphetamine manufacturing.

PROGRAM COMPONENTS

Projects funded through the JAG Program must:

- Submit a copy of the Memorandum of Understanding (MOU)/Memorandum of Agreement (MOA), if a multi-jurisdictional project
- Follow policies and guidelines as it relates the award, use and management of confidential funds, travel guidelines, property records procurement, record retention, civil rights compliance, etc.
- Follow policies and guidelines established for the management and clean-up of clandestine methamphetamine laboratories, if a drug task force project
- Complete Center for Task Force Leadership and Integrity (CTFLI) training, if a drug task forces project
- Submit monthly Claim reports to report actual expenditures/program income
- Submit quarterly Status Reports to report program activities and statistical data
- Submit quarterly PMT Reports to report program activities and statistical data, as required by BJA
- Receive at least one (1) monitoring site visit

Projects funded through the LLEBG Program must:

- Follow policies and guidelines as it relates the award, property records, procurement, record retention, civil rights compliance, etc.
- Submit an annual Status Report to report actual expenditures and program income
- Be subject to the potential of at least one (1) monitoring site visit

EVALUATION METHODS

The quarterly Status Reports will be utilized for evaluation reporting of the JAG-funded projects.

Due to the nature of the LLEBG projects, there are no evaluation methods in place. The subrecipients are not required to submit quarterly progress reports or performance metrics.

EVALUATION RESULTS

The following evaluation results are a summary of the data collected from the quarterly Status Reports submitted by all the Multi-Jurisdictional Drug Task Forces:

Arrest and prosecution of individuals/groups in drug trafficking

1. Total arrests during fiscal year 2015 were 5,379
2. 501 drug arrest with federal indictment
3. 4,803 drug arrest with state charges
4. 119 drug arrest with ordinance violations
5. During the four quarters reported for fiscal year 2015, 1,180 search warrants were served and 1,104 search warrants resulted in drug-related seizures.
6. The 24 Multi-Jurisdictional Drug Task Forces of Missouri located and destroyed 708 methamphetamine clandestine laboratories.
7. The statewide street value of all drugs seized totaled \$94,410,772.07. This amount includes the seizures of 4,975,930.82 grams of marijuana, 878.82 grams of cocaine-crack, 48,538.20 grams of cocaine-powder, 335,596.67 grams of methamphetamine, 674.49 grams of pseudoephedrine/ephedrine, 148,128.48 grams of heroin, and 846.45 grams of ecstasy.
8. Multi-jurisdictional Drug Task Forces seized a total of 764.50 doses of Hallucinogens LSD and 59,870.35 doses of prescription pills.
9. Multi-Jurisdictional Drug Task Forces reported a total of \$96,073.98 of informant expenditures utilized.
10. During this reporting period, a total of 8,239 new cases were filed and 2,149 assisted to other agencies in cases initiated 2015.

NOTE: A full statistical summary of Multi-Jurisdictional Drug Task Force accomplishments from FY15 is provided in Attachment A of this report.

The following evaluation results are a summary of the data collected from the quarterly Status Reports submitted by the other law enforcement project:

Jackson County Drug Abatement Response Team (DART): This project continued support to the DART, a multi-jurisdictional initiative to identify and shut down drug houses and street level narcotics operations in thirteen municipal jurisdictions in Jackson County. The goal of this program was to eliminate illegal drug activity in the Jackson County community by coordinating and utilizing several sources. Through these efforts, the quality of life in the target area was restored and protected. Suspected drug activity could be anonymously reported to DART team members who then communicated the information to law enforcement for investigation. DART also coordinated street level investigations, buy / bust and reverse sting operations, property fire and housing code inspections of suspected drug houses, and notification of drug activity and its consequences to property owners. Property owner seminars, community presentations, and citizen training given on recognition of drug activities were provided by DART team members.

Report of Success: DART was instrumental in 150 criminal cases filed against individuals for possessing precursor chemicals, solvents, or solutions with intent to manufacture methamphetamine. DART closed down 0 methamphetamine labs. Owners were sent 221 notice letters that their property was being used for methamphetamine production and 22 evictions were completed. Another 28 evictions were pending. Following 107 fire and housing inspections made in the DART posted properties, 48 properties were vacated. In the DART area, 2 potential nuisance

cases were filed. Over 3,016 residents had contact with the DART Coordinator, Methamphetamine Prosecutor, and Community Prosecutors. DART with other law enforcement agencies successfully served 161 search warrants and 198 arrests were made. In addition, law enforcement made 40 buy/busts that resulted in 47 arrests.

The DART team members recognized the importance of the service being provided to the community and how teamwork fostered their efforts to efficiently rid their neighborhoods of drug activity. When patrol officers shared information with the DART team, there was a broader view of the drug problems in the city. DART's database collected from police reports and their contacts is extremely helpful and attorneys used this database to assist in tracking witnesses and victims for various trials. Moreover, these data were used by community groups to show what houses were posted by DART and what impact DART has had in their community.

The DART Coordinator required several property owners to schedule a meeting with the DART Coordinator after their numerous weekly inspections. When the DART team arrived at a property for an inspection, the DART investigator and the DART coordinator were then prepared to discuss the issues with those present at the property at the time of the inspection. The DART Coordinator and Investigator attended numerous neighborhood social activities, meetings, and speaking engagements. This visibility to these neighborhoods where crime has been confirmed with drug activity was critical. The continued success of DART is greatly attributed to the wide range of resources that make up the DART team.

The continued success of DART is greatly attributed to community residents who are increasingly growing intolerant of drug activity in their neighborhood. Increased phone calls from community members regarding trespassing issues in posted DART properties are strong evidence of their growing intolerance to this illegal activity.

PURPOSE AREA: PREVENTION AND EDUCATION

Number of Sub-grants: 1

Federal Funds Awarded: \$236,436.17

Federal Funds Expended: \$233,751.09

PROBLEM STATEMENT

Clandestine production of methamphetamine is very dangerous because of the volatile, hazardous and toxic chemicals and processes involved. It not only poses risks to those involved in this illegal drug industry but also to law enforcement, fire service, and other emergency response officials who discover, collect evidence, and dispose of clandestine laboratory sites. In addition, environment and public exposed to these are negatively affected. The instability of chemicals used in methamphetamine can cause fires and explosions during its production as well during cleanup of dumpsites. Outdoor clandestine laboratories are typically located in rivers, fields, and forests causing extensive damage to the environment. Because of methamphetamine production doesn't require elaborate equipment; indoor clandestine laboratories are commonly found in private residences, hotels/motels, garages, and abandoned buildings. This can expose family members as well as unassociated public to toxic chemicals.

Evolving chemical processes to produce methamphetamine has possibly increased the hazards to all coming in contact with them. According to the National Drug and Intelligence Center (NDIC), five common production methods are used to make methamphetamine. Four of these involve chemical reduction ephedrine/pseudoephedrine but use different precursor chemicals. Common precursor chemicals include, but not limited to, hydriodic acid, red phosphorous, hypo-phosphorous acid, anhydrous ammonia, and mercuric acid. All of these are toxic and afford many health risks to those in contact.

In FY 2015, multi-jurisdictional drug task forces destroyed 708 clandestine methamphetamine laboratories. Although the number of seized clandestine laboratories suggests this illicit drug industry has decreased in recent years, it continues to be very problematic in Missouri.

PROGRAM DESCRIPTION

Programs were sought that addressed the response of public safety and emergency service officials to clandestine methamphetamine laboratories. Applications were encouraged that addressed crime scene processing, site cleanup, and disposal of chemicals and equipment associated with these labs. Provision of supplies, training, and reference materials was available to Missouri law enforcement, fire service, and other emergency response officials to effectively equip them to safely process methamphetamine laboratories and construct collection stations for chemical disposal.

PROGRAM COMPONENTS

Projects funded through the JAG Program must:

- Submit a copy of the Memorandum of Understanding (MOU)/Memorandum of Agreement (MOA), if a multi-jurisdictional project
- Follow policies and guidelines as it relates the award, travel guidelines, property records procurement, record retention, civil rights compliance, etc.
- Submit monthly Claim reports to report actual expenditures/program income
- Submit quarterly Status Reports to report program activities and statistical data
- Submit quarterly PMT Reports to report program activities and statistical data, as required by BJA
- Receive at least one (1) monitoring site visit

EVALUATION METHODS

The quarterly Status Reports will be utilized for evaluation reporting of the JAG-funded projects.

EVALUATION RESULTS

The following evaluation results were obtained from quarterly Status Reports submitted by the program funded under this program area:

Missouri Department of Natural Resources Clandestine Drug Laboratory Collection Station: This continuing project supported the Department of Natural Resources, Environmental Emergency Response Section, Environmental Services Program to expand and enhance an existing project for responding to methamphetamine clandestine laboratory clean up requests. The goal of this project was to increase safety and reduce risk of injury to the staff, the public, and the environment exposed to clandestine laboratories. This goal was achieved by three objectives: 1) Provide proper supplies and reference material to Missouri law enforcement, fire service, and other emergency response officials; 2) Provide supplies for processing and disposal of clandestine drug lab materials to clandestine drug laboratory collection stations; and 3) Provide on-site responses to clandestine methamphetamine laboratory incidents, when requested by law enforcement, fire station, and other emergency officials.

Report of Success: The Missouri Department of Natural Resources' Environmental Emergency Response (EER) was afforded the purchases of proper supplies and reference materials to Missouri law enforcement, fire service and other emergency response officials to help them safely respond to clandestine methamphetamine lab incidents and perform their jobs with reduced risk of injury to themselves, the public, and the environment, supplies to process and dispose of clandestine drug lab materials from the clandestine drug laboratory collection stations (CDLCSs), and on-site response to clandestine methamphetamine lab incidents, if assistance was requested by law enforcement.

Part of the funding from this grant was used to purchase necessary personal protective equipment and supplies for safety, cleanup and air monitoring to help law enforcement and others respond safely and properly manage seized clandestine drug lab materials. The Department provided items such as sample bottles, vials, buckets with lids, air purifying respirator and cartridge, chemical protective coveralls, nitrile gloves, boot covers, trash bags, disposable pipettes, safety glasses, absorbent, duct tape, PH paper, Drager pumps and colorimetric tubes, and over-pack drums to law enforcement agencies. By providing these supplies, the Department helped ensure that these agencies could respond to clandestine methamphetamine lab incidents with reduced risk of injury to themselves, the public and the environment.

The Department established seventeen (17) CDLCSs throughout the State. These CDLCSs accepted drug lab material from various law enforcement and drug task force agencies. The Department provided supplies, operational oversight, and assistance to collection stations. The Department also provided assistance to the CDLCS personnel and helped with the processing of waste materials accepted at the collection stations, ensuring the completing of all required documentation. The EER has staff available to respond on-site to clandestine drug labs and assist law enforcement, drug task forces, fire department, and other agencies within the State of Missouri with the proper management, cleanup and disposal of clandestine drug lab chemicals. From calendar year 2014, the Department estimates that there were 89 methamphetamine lab incidents.

PURPOSE AREA: DRUG TREATMENT

Number of Sub-grants: 1

Federal Funds Awarded: \$21,367.55

Federal Funds Expended: \$21,367.55

PROBLEM STATEMENT

There is ample documentation of the connection between substance abuse and crime. The impact substance-abusing offenders have on society, the criminal justice system, and themselves are significant. Most notably, the drug-involved offender typically commits many more crimes than the non-involved offenders. They are likely to commit hundreds of crimes including robberies and burglaries each year. We know that large numbers of criminal offenders are active abusers of illicit drugs and alcohol and that a relatively small number of drug involved offenders are responsible for a grossly disproportionate amount of crime. The need to focus on the development of effective strategies for addressing drug and alcohol abuse among juvenile and adult offenders is evident. The growing understanding of the relationship of substance abuse and crime has supported the need for comprehensive and coordinated substance abuse services at all points of the criminal justice system.

PROGRAM DESCRIPTION

A variety of effective programs, such as substance abuse counselors, drug treatment and intervention, and intensive supervision of juveniles have been implemented throughout the state. This is a comprehensive focus on substance abuse services at all levels and includes the following key components: Appropriate assessment and intervention, substance abuse education, a range of treatment modalities to meet offender need levels, after-care services, an emphasis on continuity of care, and an on-going concern for quality assurances. The primary focus of the Intensive Supervision Probation/Parole program will be to provide additional public corrections resources and improve the corrections systems.

PROGRAM COMPONENTS

All projects funded through this program must:

- Submit a copy of the Memorandum of Understanding (MOU)/Memorandum of Agreement (MOA), if a multi-jurisdictional project
- Follow policies and guidelines as it relates the award, travel guidelines, property records procurement, record retention, civil rights compliance, etc.
- Submit monthly Claim reports to report actual expenditures/program income
- Submit quarterly Status Reports to report program activities and statistical data
- Submit quarterly PMT Reports to report program activities and statistical data, as required by BJA
- Receive at least one (1) monitoring site visit

EVALUATION METHODS

The quarterly Status Reports will be utilized for evaluation reporting of the JAG-funded projects.

EVALUATION RESULTS

The following evaluation results were obtained from quarterly Status Reports submitted by the program funded under this program area:

Stone County Prosecuting Attorney's Office: This new project supports the Stone County Prosecuting Attorney's office response to offenders and multiple offenders of drug or alcohol related charges. The goal of this project is to address the gap in the current prosecution/treatment model for alcohol/drug offenders. This goal will be achieved by completing three objectives: 1) Provide a drug court to process serious drug offenders; 2) Enhance disposed drug offenders' probation through a combination of probation and parole; and 3) Provide monitoring and supervision through the prosecutor's office.

Report of Success: MOJO has met its goals by drug testing defendants and treatment requirements are being monitored along with helping defendants obtain drivers license and attend GED programs. The program has helped a quarterly average of 60 participants of the four track program. The program has also graduated 17 people from the program in the

grant year. The program has several life skills it teaches their participants. The life skills are high school education or GED, drivers license, employment, and/or a drug free status for a least one year prior to completion of the program.

More intense monitoring has taken place such as drug court as alternatives to revocation. The success of this program has been met by changing the life of the youth by helping them with their addiction to drug and alcohol.

PURPOSE AREA: PLANNING, EVALUATION, AND TECHNOLOGY IMPROVEMENT

Number of Sub-grants: 1

Federal Funds Awarded: \$62,933.07

Federal Funds Expended: \$62,933.07

PROBLEM STATEMENT

In today's society, criminal history records are becoming increasingly relied upon by the criminal justice system to make charge, release, and sentencing decisions. Records are also used as a tool when making decisions regarding licensing and employment purposes, including foster care, schoolteachers and bus drivers, hospital, nursing home, and home health care employees, and in transactions relating to the purchase of firearms. Local criminal justice agencies are required to report criminal history to the Missouri State Highway Patrol's Central Criminal History Records System (CHRS) repository. The paper system of reporting is quickly becoming obsolete and does not allow timely, accurate, and complete criminal histories. Local criminal justice agencies are unable to report in an adequate manner when they have to stretch their budgets and personnel to the limits just to get their core duties accomplished. In order to achieve complete, accurate, and timely criminal history records, cooperative efforts of all the components of the criminal justice system must be implemented.

Illicit drugs impact on society is manifested in many ways. The criminal justice system is negatively impacted by the resources and efforts expended to control both illicit drug use and industries. These drugs also negatively affect the health of Missouri citizens, economic infrastructure, social fabric, and environment. No single data source or information system can directly measure illicit drugs adverse impact on these. The nature, extent, and temporal and geographic trends can only be accessed through analysis of many disparate data systems such as those of criminal laboratories, law enforcement, juvenile and adult courts, hospitals, treatment centers, and corrections.

PROGRAM DESCRIPTION

Given that each component of the criminal justice system is responsible to a different authority (such as the circuit courts to the Office of State Courts Administrator, prosecutors and sheriffs to their constituencies and police to the mayor or city manager), no one agency can effectively support all elements of the criminal history system. This program is designed around a support structure to address each component. Through cooperative efforts, law enforcement, prosecutors, and courts will provide an integrated solution to improve the completeness, accuracy and timeliness of Missouri's criminal history records. The local criminal justice agencies will be provided with equipment, software and training for the automation and integration of systems for the improvement of the criminal history reporting capabilities. The implementation of law enforcement case management, prosecutor case management and courts case management systems will provide statewide access for users. Once local agencies are automated and linked to the state criminal record repository, the federal criminal files, state and federal wanted files and other databases become a substantial tool in fighting crime and protecting our citizens. A totally automated system is being developed where each agency with reporting responsibilities interacts directly with the criminal history system to provide the required information for the record event under their jurisdiction. The CHRS repository would then be responsible for coordinating this effort and controlling the quality and dissemination of the records. They would also be available to assist any element of the system that encounter problems and be responsible for training on an as needed basis.

The purpose of the Justice Assistance Grant Program is to assist states and units of local government in implementing specific programs that offer a high probability of enhancing and improving the efficiency and effectiveness of the criminal justice system. Special emphasis is placed on controlling violent and drug-related crime and serious offenders, and fostering multi-jurisdictional and multi-state efforts to support national drug-control priorities. This is achieved through analysis of the illicit drug problem in Missouri and maintaining several criminal justice data systems.

PROGRAM COMPONENTS

All projects funded through this program must:

- Submit a copy of the Memorandum of Understanding (MOU)/Memorandum of Agreement (MOA), if a multi-jurisdictional project
- Follow policies and guidelines as it relates the award, travel guidelines, property records procurement, record retention, civil rights compliance, etc.

- Submit monthly Claim reports to report actual expenditures/program income
- Submit quarterly Status Reports to report program activities and statistical data
- Submit quarterly PMT Reports to report program activities and statistical data, as required by BJA
- Receive at least one (1) monitoring site visit

EVALUATION METHODS

The quarterly Status Reports will be utilized for evaluation reporting of the JAG-funded projects.

EVALUATION RESULTS

The following evaluation results were obtained from quarterly Status Reports submitted by the program funded under this program area:

Missouri State Highway Patrol - Administrative Data Analysis And Problem Identification: This continuing project involves establishing a series of policies, procedures, systems, and reporting recommendations. The State of Missouri will effectively manage the JAG Program by analyzing drug and violent crime environments in the State; assessing effectiveness of existing programs; and offering data and interpretive analysis support for development of new programs. The MSHP, coordinating their activities with DPS's CJ/LE Unit staff, will complete the following project goals: 1) Provide base-line information to properly assess Missouri's illicit drug and violent crime problems; 2) Support successful administration of Missouri's JAG Program by providing needed research, evaluation, and data processing services; 3) Develop and implement Missouri's UCR data collection application and output report application; and 4) Enhance capabilities of Missouri's criminal justice information systems in supporting statewide illicit drug and violent crime problems and grant administration.

Report of Success: Two reports, *Missouri Statewide Drug and Violent Crime Strategy* and *Analysis of Multi-Jurisdictional Drug Task Forces* were developed during this grant period. The publication *Missouri Statewide Drug and Violent Crime Strategy* was completed and provided to DPS - CJ/LE staff in July 2014. Analyses were completed from data gathered from Missouri state agencies such as Department of Health and Senior Services and Department of Mental Health. Data analyses included treatment and hospital admissions, juvenile referrals, prison incarcerations, criminal arrests, intravenous AIDS/HIV cases, multi-jurisdictional drug task force seizures, crime laboratory cases, and MJTF survey responses and placed in the *Missouri Statewide Drug and Violent Crime Strategy*. An Internet based survey instrument was designed and implemented to capture drug task force officials' perceptions of the drug industry in Missouri. The survey was distributed to the points of contacts of twenty-seven multi-jurisdictional drug task forces. Analyses of survey responses were completed and results were incorporated into the 2015 edition of the publication entitled *Missouri Statewide Drug and Violent Crime Strategy*.

A three year trend analysis of multi-jurisdictional drug task force data to identify temporal patterns of Missouri law enforcement's response to illicit drug industries regionally and statewide and was conducted and a draft of the report was sent to DPS in April 2015 and final report published in April 2015.

The publication entitled *Justice Assistance Grant - JAG Evaluation Plan 2014–2015* was published and provided to DPS CJ/LE in November 2014. In this publication, designs for programs funded in five purpose areas were constructed including prosecution/court programs (0 grants), prevention/education programs (1 grant), drug treatment programs (1 grant), planning, evaluation and technology improvement programs (1 grant), law enforcement programs (25 grants), and crime laboratories (6 grants). Each program design included a set of criteria that DPS used to determine success of JAG funded programs.

The *FY 2014 Edward Byrne Memorial Justice Assistance Grant Program Annual Report* was completed and provided to DPS CJ/LE staff in January 2015. Final reports of success were published in the *Annual Report* for FY14 funded multi-jurisdictional drug tasks forces and programs addressing law enforcement and drug task forces, prosecution and court, prevention and education, crime laboratories, internet cybercrime, and planning/evaluation/technology. In addition, summaries were published of quarterly reports submitted by multi-jurisdictional drug task forces and crime laboratories. A strategic plan for implementing FY15 JAG funded programs was included in the *Annual Report* with evaluation designs and performance measures.

Progress reports and quality control analysis were received and completed for FY14 fourth quarter and FY15 first through third quarter multi-jurisdictional drug task forces, FY15 first through fourth quarter Crime Laboratories and State Cyber

Crime Grant (SCCG). Progress reports were processed and data entered to their respective databases, and results of these analyzes were provided to DPS - CJ/LE Unit staff.
